DETAILED ACTION

Response to Arguments

1. Applicant's arguments filed October 06, 2011 have been fully considered but they are not persuasive.

The applicant argues that the combination of Schofield, Wong, and Perkins does not teach a portion of a strap passes between opposing ends of the strap located in an interior portion of the video display device in a groove between front and back walls of the video display device (Remarks of October 06, 2011, page 13 lines 10-13). The examiner respectfully disagrees. The clips of Wong are a part of the claimed video display device and therefore the clips could be considered to be claimed groove (Wong, page 6 lines 18 – page 7 lines 11).

The applicant argues that the combination of Schofield, Wong, and Klein does not teach the flap portion of the claimed limitation (Remarks of October 06, 2011, page 16 lines 6-8). The examiner respectfully disagrees. Klein discloses the claim limitations regarding the flap (paragraphs [0021] – [0023]).
